

'Wear it Wild!' Day Friday 24th February 2023

Dear Parents and Carers,

On **Friday 24th February 2023**, John Donne School will be holding a **'Wear it Wild!' Day** To promote Year 2's Project on saving the world's most endangered animals. Year 2 invites all children and families from our John Donne Community to help us in our bid to support those animals in need.

Year 2 Children have been investigating our project question of: "*How are humans and animals connected?*" We have been researching the world's most endangered animals this half term, which has included writing persuasive letters, visiting a city farm and attending workshops run by *Born Free Charity*.

In this time, Year 2 were able to examine the causes around the world that effect at-risk life forms and have been inspired to set about making a change.

As a school, we are inviting you to support us in our campaign! **We would like every child across the school to wear an animal-inspired outfit for our 'Wear It Wild!' Day on Friday 24th February 2023.** Please support our campaign and help send a united message from John Donne Primary School that all animals have the right to a safe habitat!

Year 2 children will be presenting information to classes across the school to further highlight why this is such an important cause in the week.

We will be collecting a charitable donation which we will send to **WWF**, a world renowned charity which actively fights for this cause. To help us do this we would ask for you to send in a donation with your child on Friday 24th February. We are not asking for a specific amount, just whatever you can afford as this will help boost our donation.

We look forward to seeing you join our cause!

Many thanks,

Year 2 Team
